

REMOTE CONTROLLED THERMOSTATIC MIXING VALVE FROM 1/2" TO 1" 1/4

MAS 6..7/T

APPLICATION

- The essential and indispensable feature of the mixer is its response speed to temperature variations. The mixer compares the water temperature, measured by the probe, with the value set using the knob on the cab.
- For commissioning the device, use the MASInterface sw available by clicking on Data Sheet

Code	DN inches	mm.	Flow rate l/min. (¹)	Kvs(²) m³/h	Setting range	Data Sheet
